LETTER FROM THE PRESIDENT

I am happy to write this introduction for our second employee newsletter. Please check out this newsletter for updates on what is happening with the company and to learn details about new benefits and upcoming events.

In this issue of the newsletter we are recognizing some of the people who have joined ZaneNet as employees and interns—and are giving a special shout out to Sheena Patel in our Employee Highlight section, as we recognize her as an outstanding employee and team member. We will continue to highlight others in the newsletters to follow.

We are happy to have seen (and celebrated with) many members of the ZaneNet team during our annual holiday party and at community service events. Please consider coming out to our summer family friendly event as well—more details to follow.

We continue to be proud of the work that our team is doing. Wishing everyone a happy start to the summer and I hope you get a chance to enjoy the good cheer and weather that comes with summer in the DC area. All the best. *Alexandra*

ZaneNet was recognized as Healthy Business of the Month by DC HealthLink.

ZANENET IN THE COMMUNITY

ZaneNet team members including Sheena Patel, Sandeep Puri, Tinh Bui, Luigi Leblanc, Harriet Washington, Angela Debruhl and Alexandra Jellerette participated in a Holiday Party sponsored by ZaneNet for children enrolled in the Playtime Project, an organization that provides activities, healthy snacks, and fun for children at emergency shelter and transitional housing sites throughout Washington, D.C. Our team organized fun activities such as bracelet making and cookies/cupcake decorating. For more information on Playtime Project, please visit their website at www.playtimeproject.org.

EMPLOYEE HIGHLIGHT

Sheena Patel— is recognized as an Outstanding ZaneNet Employee

Sheena, a Maryland native, absolutely loves her home state! After her undergraduate studies at the University of Maryland, College Park, she completed her medical degree in the Cayman Islands. Soon thereafter, Sheena ran a group of outpatient mental health clinics, which cemented her passion for behavioral health. Sheena joined Zane Networks in January of 2017 and has been working full time for CRISP since then. At CRISP, she is the Associate Director of Provider Relations, and also serves as the Behavioral Health subject matter expert. Sheena absolutely loves her job, which allows her to be out in the community and truly impact patient outcomes and total cost of care. Being able to leverage her medical knowledge within a health IT environment is such a unique and fulfilling aspect of her work. Through her role, she is able to interact with both hospital and non-hospital stakeholders, and Sheena is constantly challenged to help solve complex IT problems which directly affect provider workflows. She loves that she is always learning new things, and so grateful to work in such a friendly and supportive environment.

SAVE ON TRAVEL EXPENSE WITH SMART BENEFITS

ZaneNet is now participating in WMATA's SmartBenefits® program, whereby employees can pay for Metro pre-tax. Your SmartBenefits® are delivered to your existing SmarTrip® cards automatically.

You can use SmartBenefits® to pay for transit and parking anywhere Metro's SmarTrip® card is accepted, including at Metrorail parking lots. You can also use SmartBenefits® to pay for MARC, VRE and MTA Commuter Bus passes, and for MetroAccess. Hundreds of vanpool operators accept SmartBenefits® as well. For more information about the program, please call the office at 301-560-0500.

INTERN HIGHLIGHT

Kasim Helil

My name is Kasim Helil. I am a software engineer at Unisys Corporation. I graduated from University of Maryland in Computer Science. My interest in computer science began when I moved to the US back in 2012 - admiring how technological advancement helped the country stay great, I've wanted to be part of this fast-growing industry since then.

I worked as a Software Engineer intern at Zane Networks in Summer 2018. Zane Networks has been a great place for me to develop my skills. The humble and friendly employees of Zane Network made my first work experience be so easy to adapt.

I enjoy coding, learning new things, watching soccer game, and participating in group activities.

Caroline Chukwu

I am a rising Junior at the University of the District of Columbia. My major of study is biology and I plan to pursue a career in healthcare after attending medical school.

I am working with CRISP on their project to enhance their Health Information Exchange program in order to provide more equitable access to care and enhance overall healthcare quality. From this internship I hope to gain experience working in the health information industry in order to broaden my knowledge of healthcare as a whole.

In my free time, I love watching movies. My favorite movie is Kill Bill. I also love a good burger and my favorite burger joint in DC right now is TKO Burger.

Danielle Carroll

I am in pursuit of my associates degree in Computer Science at University of the District of Columbia. I graduated from Eastern SHS. I was born and raised in Washington DC.

I am working as a Web Development Intern with Zane Networks.

My hobbies are video gaming, hanging out with friends/family, and enjoying musicals.

Richard Morgan, FEI (Help Desk)

Angela Turner (on left), Office/Accounts Manager

Harriet Washington, Human Resources

Srivivas Mallepally, Software Developer,
FEI Systems
